

Karan Sanjay Jadhav

Pune, Maharashtra | M: +91-8669790435 | E: karanjadhav0027@gmail.com | [GitHub](#) | [LinkedIn](#)

Objective:

Aspiring Software Developer with Strong foundation in Programming, Problem-solving, and full-stack development. Skilled in multiple programming languages, databases, and frameworks with hands-on experience through academic and industrial projects. Seeking an opportunity to apply technical expertise to build scalable and impactful software solutions.

Educational Qualifications:

Standard	Institute	Board/University	Percentage/CGPA	Passing Year
MCA	DYPCMR	Savitribai Phule Pune University	9.36 CGPA	2025
BCS	MSG College	Savitribai Phule Pune University	6.5 CGPA	2023
HSC	MSG College	Maharashtra State Board	69.83%	2020
SSC	RES School	Maharashtra State Board	81.80%	2018

Professional Summary :

- Experienced in **application development** using C, C++, Java, Python, and JavaScript.
- Hands-on expertise in **Linux System Programming** using C & C++, with exposure to low-level concepts like **Kernel Modules and Device Drivers**.
- Proficient in **algorithm design and optimization**, ensuring efficient and scalable solutions.
- Skilled in writing **automation scripts in Python** to streamline repetitive tasks and processes.
- Exposure to **Machine Learning application design and development** with practical implementation.
- Knowledgeable in **server-side web development** using Java (Spring Boot), Python, C#.NET, PHP, and Node.js.
- Strong understanding of **Operating System internals**, system-level concepts, and performance tuning.
- Designed and implemented **7+ industry-oriented projects**, including full-stack, cryptography, and reusable libraries.
- Gained hands-on experience in **RESTful API development, database integration, and cross-platform programming**.
- Practical expertise in **encryption & system-level security** through projects like Secure File Transfer Simulation.
- Experienced in building both **console-based and GUI-based applications** to enhance user interaction.
- Familiar with **Agile and Waterfall SDLC methodologies**, delivering structured and timely solutions.
- Active contributor on **GitHub** with well-documented repositories showcasing projects.
- Strong analytical and problem-solving skills** with ability to quickly learn, adapt, and mentor peers in programming and project development.

Technical Skills :

Programming Paradigms & Languages

- Procedural Programming:** C
- Object-Oriented Programming (OOP):** C++, Python
- Virtual Machine-based Programming:** Java, C#.NET
- Scripting Languages:** PHP, JavaScript

Web Technologies: HTML/HTML5, CSS2/CSS3, JavaScript

IDE & Tools: Visual studio Code, Visual Studio, Sublime, Webstorm, IntelliJ

Web Servers: Apache Tomcat 8.0.22, WebLogic 12.2.1, IBM WebSphere8.5.

Version Control: GIT

Database: PL/SQL(oracle), MySQL, MS SQL, MongoDB (NoSQL)

Operating System: Windows NT, Linux Distributions, UNIX SYS V4

Testing techniques : Unit testing

Methodologies: Agile, Waterfall

Technical Projects:

1. EduTrack - Classroom & Student Management Portal

Technology: Java, Spring Boot, MongoDB, REST APIS.

GitHub Repository: github.com/KaranJadhav0027/Edutrack-API

- Developed a full-stack system for managing batches and student records.
- Implemented CRUD operations with RESTful APIs and NoSQL storage.
- Designed a Java-based client interface for seamless interaction.

2. Duplicate File Remover with Automated Email Logs

Technology: Python, MD5, SMTP, Time, Schedule, Logging, CLI

GitHub Repository: github.com/KaranJadhav0027/Remove-Duplicate-File

- Developed a Python script to detect and delete duplicate files using MD5 checksum comparison.
- Automated log generation and email notifications via SMTP for system updates
- Designed a CLI for customizable directory input, scheduling, and email configuration.

3. File Packer & Unpacker with Encryption

Technology: Java, Encryption

GitHub Repository: github.com/KaranJadhav0027/File-Packer-Unpacker

- Built a file archiving utility with integrated encryption/decryption.
- Implemented metadata preservation during packing/unpacking.
- Designed GUI using Swing for user-friendly interaction.

4. Chat Messenger with Log Facility

Technology: Java, Socket Programming

GitHub Repository: github.com/username/Chat-Messenger

- Implemented a peer-to-peer chat system with real-time messaging.
- Maintained chat logs with timestamps for future reference.
- Applied TCP/IP socket programming concepts.

5. Customised Virtual File System (CVFS)

Technology: C Programming, OS Internals

GitHub Repository: github.com/KaranJadhav0027/CVFS

- Simulated Linux-like file system operations with a custom shell.
- Implemented system calls (open, read, write, lseek, delete).
- Gained hands-on understanding of inodes, file tables, and OS design.

6. Generalised Data Structures Library

Technology: C++

GitHub Repository: github.com/KaranJadhav0027/Generalised_DS

- Developed a reusable library of linear & non-linear data structures.
- Implemented stacks, queues, linked lists, BST, searching & sorting.
- Designed using templates for data type independence.

Personal Information:

- Date of Birth: 15 February 2002
- Father's Name: Sanjay Baliram Jadhav
- Marital Status: Single
- Nationality: Indian

The above mentioned information is authentic to the best of my knowledge.
